THIS CERTIFIES THAT

Building D

HAS ACHIEVED AN

EDGE ADVANCED CERTIFICATE

CERTIFICATE NUMBER

GP1-THA-21031810103790

EDGE ADVANCED

Exemplifying achievement in the following areas:

58%

Energy Savings

34%

Water Savings

26%

Less Embodied Energy in Materials

91.86 tCO_2/year

Operational CO_2 Emissions

128.75 tCO_2/year

Operational CO_2 Savings

ENERGY MEASURES

Reduced Window-to-Wall Ratio
Exterior Shading Devices
Insulated Roof
Insulated Exterior Walls
High-performance Glass
Efficient Cooling System
Efficient Interior Lighting
Efficient Exterior Lighting
Efficient Interior Lighting
Solar Electricity Generation

WATER MEASURES

Water-efficient Showerheads
Efficient Water Closets
Water-efficient Urinals
Efficient Water Closets
Water-efficient Faucets in Bathrooms
Water-efficient Faucets in Kitchen
Rainwater Harvesting System

MATERIALS

Material-efficient Floor Slabs - In-Situ Reinforced Concrete Slab
Material-efficient Roof Slab - In-Situ Reinforced Concrete Slab
Material-efficient Exterior Walls - Autoclaved Aerated Concrete Blocks
Material-efficient Interior Walls - Autoclaved Aerated Concrete Blocks
Material-efficient Interior Walls - Autoclaved Aerated Concrete Blocks
Material-efficient Flooring - Finished Concrete Floor

EDGE is a registered trademark of IFC. ©IFC 2024

The EDGE standard requires 20% efficiencies in energy, water and materials compared to a local benchmark. Predicted efficiencies are not a guarantee of future operational performance. Energy savings may be associated with virtual energy for comfort depending on the presence of heating and cooling systems. Virtual energy does not contribute savings to utility bills.

This certificate is issued by the Certifier based on information provided by the client and the audit by the Auditor, and is subject to the terms and conditions of the Certifier. Contact edge@ifc.org if the above measures are not consistent with your observation on the project.
